Koteshwor, Kathmandu

SKILLS

- *Languages*: C#, JavaScript, CSS, SQL
 - *Databases*: PostgreSQL, DynamoDB
 - *Frameworks/Libraries*: .NET (ASP.NET Core, Entity Framework Core), RabbitMQ, Redis
 - *Architecture / Patterns*: Clean Architecture, CQRS, RESTful APIs, Basic DDD
 - *Cloud / DevOps*: AWS (Lambda, SQS, SNS, API Gateway), Docker, GitHub Actions, CI/CD
 - *Tools / Platforms*: Git, Postman, Nginx, SonarQube
-

PROFESSIONAL EXPERIENCE

- **Aloi Global | Feb 2024 – May 2024 | Intern – .NET Developer**
 - **Fintech Solutions | Jun 2024 – Present | Junior .NET Developer**
 - Contributed across the full SDLC, including requirement analysis, system design, development, testing, deployment, and production support.
 - Designed and developed scalable RESTful APIs using ASP.NET Core, implementing validation, pagination, and standardized HTTP responses.
 - Applied Clean Architecture with clear separation of concerns across Controller, Application, Domain, and Infrastructure layers.
 - Used CQRS and foundational DDD concepts to structure business logic and improve maintainability of fintech services.
 - Developed backend services for international payout and remittance workflows, implementing idempotency, retry/fallback logic, and webhook/API Gateway callbacks.
 - Designed and optimized PostgreSQL schemas, indexes, and stored procedures; wrote performance-tuned SQL queries.
 - Used Entity Framework Core alongside raw SQL for performance-critical data access.
 - Implemented centralized exception handling, custom middleware, structured logging, and input sanitization to improve reliability.
 - Built event-driven components using AWS Lambda, SQS/SNS, and background workers for asynchronous processing.
 - Implemented secure authentication and authorization, including RBAC, encryption, and audit logging.
 - Deployed and integrated services on AWS cloud infrastructure and supported environment configuration.
 - Practiced CI/CD workflows using GitHub Actions and Docker, following Git-based version control strategies.
 - Collaborated in Agile/Scrum teams, participating in sprint planning, daily stand-ups, and code reviews.
 - Performed unit and integration testing, resolved defects, and supported production issue resolution.
-

EDUCATION

Bachelor of Engineering in Computer Engineering

- Nepal College of Information Technology [NCIT] - Batch [2018]
